Summary

I want to be a **junior web developer**. Although I started my developer journey with JSE, nowadays I am very keen on beautifying websites. So, I am creating a lot of projects with *HTML , CSS , Javascript, Bootstrap , MySQL* and *PHP*. In addition I am learning *Laravel* framework , *Tailwind CSS* and *React JS*.

Expierence

Even though I have never worked with this field, I have a lot of projects.Some are :

- Diary Project (JSE).
- Tour Project (HTML , CSS, JS).
- Food Project (HTML, CSS, JS)
- Indoor Plant Project (HTML , CSS, JS, Bootstrap, PHP)
- Teashop Project (HTML, CSS, JS, Bootstrap , PHP)
- Teashop Project (HTML, CSS, JS , Bootstrap)
- Training School Project (HTML, CSS,JS,Bootstrap) You can see some of my projects on github.

Skills

MySQL, Data Structure Knowledge

JSE

HTML,CSS, JavaScirpt,Bootstrap
